Clodagh Brady - Operations Manager (Amazon Web Service)

I started in Amazon Web Services as a graduate in 2015 from TU Dublin Kevin St, terrified of what was ahead of me. Within 5 years, I managed to specialise in DevOps, work my way up the ladder, and become a manager of the Linux team here in Premium Support. While working with my own team I am also part of the team that now runs our graduate program here in Dublin, coming full circle. While I still don't know what the future holds, I am enjoying every second of the journey and still learning every single day.
